

D. S. Riddock executes all kinds of Book, Card and Job Printing, at the

lowest living rates at the Daily Star and Weekly

Democrat Office, New London, Conn. Advertisements inserted reasonably in Star and Democrat.

THE
NEW-ENGLAND
ALMANAC,
AND
FARMER'S FRIEND,

FOR THE YEAR OF OUR LORD CHRIST,

1860 ■ ■

BEING

Bissextile or Leap Year, and the Eighty-Fourth of
American Independence.

*Calculated for the Meridian of New London, Lat.
41° 21' N., Lon. 72° 12' W.,*

CONTAINING

BESIDES THE ASTRONOMICAL CALCULATIONS, A VARIETY OF MATTER BOTH USEFUL AND ENTERTAINING.

BY NATHAN DABOLL, A. M.

Time's rapid chariot wheels, unheard, sweep by,
By careless man unnoticed and unknown;
His winged coursers, like the lightning fly,
And like its faded paths his track is strown—
As when its vivid flashes rend the sky
And crush alike the hovel and the throne;
The haughty monarch in his hall of State,
And the poor vassal trembling at his gate.

NEW LONDON :

Published and for sale by STARR & CO., No. 4,
Main Street.

Starr & Farnham, Printers, 2 1-2 Main St.

OBSERVATIONS.

The hour of the night is many times more conveniently estimated by the moon's southing than by her rising or setting.

To find the Moon's Southing.

RULE.—Add 3 hours to the time of high water on any given day, as it is inserted in this Almanac, and you will have the true time of the moon's southing for that day.

N. B. Double the time of the Sun's setting and you will have the length of the day; and double the time of the sun's rising will be the length of the night.

Note. The Sun's Declination is given in this Almanac corrected for longitude 70 West.

CHRONOLOGICAL CYCLES FOR 1860.

Dominical Letters,	A. G.	Solar Cycle	21
Lunar Cycle or Golden Number	18	Roman Indiction	2
Epact	7	Julian Period	6573

NAMES AND CHARACTERS OF THE PLANETS.

 Sun	 Venus	 Jupiter
 Moon	 Earth	 Saturn
 Mercury	 Mars	 Herschel

NAMES AND CHARACTERS OF THE ASPECTS.

-  Conjunction, or planets situated in the same longitude.
-  Quartile, when they are 90 deg. distant from each other.
-  Opposition, when they are 180 degrees distant.
-  Sextile, is when two planets or stars are 60 deg. distant.

ELECTORS' MEETINGS.

Holden annually on the first Monday in April.

ECLIPSES IN THE YEAR 1860.

There will be two Eclipses of the Sun, and two of the Moon, in the year 1860. as follows :

I. The first will be an annular Eclipse of the Sun, January 22d, at the time of New Moon. Invisible in North America. The northern line of simple contact in this Eclipse will only reach as far north as the Equator.

II. The second will be a partial Eclipse of the Moon, February 6th. Visible on our meridian as follows :

Beginning February.	6d. 8h. 14m.	} Meantime in the evening.
Middle of Eclipse,.....	" 9h. 41m.	
End of Eclipse,.....	" 11h. 8m.	
Whole duration,.....	2h. 56m.	

Digits Eclipsed 9 7-10ths. The first contact of the Moon with the Earth's shadow 79° from her north Limb towards the east. Last contact 32° towards the west.

III. A total Eclipse of the Sun, July 18th, at the time of New Moon. Visible (as a partial one) on our meridian as follows :

Beginning July	18d. 7h. 14m.	} Apparent time in the morning.
Middle of Eclipse,.....	8h. 16m.	
End of Eclipse,.....	9h. 20m.	
Whole duration,.....	2h. 6m.	

Digits eclipsed, $5\frac{3}{4}$ on the Sun's Northern Limb.

This Eclipse will not be total in any part of the United States east of the Rocky Mountains. The centre of the Moon's dark shadow first falls on the North Pacific Ocean, about 150 miles south-westerly from Cape Flattery, near the entrance of the Columbia River in Oregon. The central line of said Eclipse then passes on over the Rocky Mountains, the northern part of British America, crossing Hudson's Bay and Davis' Straits, and passing near the south point of Greenland, continues on over the North Atlantic Ocean, passing west of Ireland, and bending its course more easterly passes over Spain, the Mediterranean Sea, Algiers, &c., and ends on the Red Sea.

IV. The fourth will be a partial Eclipse of the Moon, August 1st, beginning at 11h. 20m. before noon, and ending at 1h 53m. afternoon ; consequently invisible in the United States.

A T A B L E

SHOWING THE DIFFERENCE OF HIGH WATER AT SEVERAL PLACES
FROM NEW-LONDON.

The seventh column of each monthly page shows the time of high water at New-London, New-York, Elizabethtown Point, Tarpaulin Cove, Cape Henlopen, Cockspur in Georgia, and Brunswick in North Carolina—to which if you add and subtract as in this table, you will have the time of high water at the following places. *A.* shows the annexed quantities of time must be added; *S.* subtracted; *H.* stands for hours; *M.* minutes.

JANUARY hath 31 days, beginning on Sunday. [1860.]

With the fierce rage of Winter deep suffus'd,
 An icy gale, oft shifting, o'er the pool
 Breathes a blue film, and in its mad career
 Arrests the bickering stream.

MAY hath 31 days, beginning on Tuesday.

[1860.]

On come ! and while the rosy-footed May
Steals blushing on, together let us tread
The morning dews, and gather in their prime
Fresh-blooming flowers, to grace thy braided hair.

Full moon 5d. 2h. 14m. morn. New moon 20d. 1h. 58m. after.
Last qr. 12d. 2h. 28m. after. First qr. 27d. 3h. 16m. after.

JUNE hath 30 days, beginning on Friday.

[1860.]

Now, flaming up the heayens, the potent sun
 Melts into limpid air the high-raised cloudes,
 And morning fogs, that hover'd round the hills
 In party colored bands.

Full moon 3d. 11h. 57m. morn. | New moon 19d. 0h. 35m morn.
 Last qr. 11d. 8h. 16m. morn. | First qr. 25d. 7h. 47m. after.

OCTOBER hath 31 days, beginning on Monday.

[1860.]

Hence from the busy joy-resounding fields,
In cheerful error, let us tread the maze
Of Autumn, unconfl'd; and taste reviv'd.
The breath of orchard big with bending fruit.

Last qr. 7d. 6h. 16m. after. First qr. 21d. 9h. 22m. morn.

NOVEMBER hath 30 days, beginning on Thursday. [1860.]

Hung o'er the furthest verge of heaven, the sun
Scarce spreads through ether the dejected day;
Faint are his gleams, and ineffectual shoot
His struggling rays in horizontal lines.

BOOK AGENTS WANTED!

AGENTS ARE WANTED by the subscriber, who has been successfully engaged in the subscription publishing business for the last twelve years, to travel and solicit orders in each county in the United States and Canada, for his publications, which are gotten up in the most attractive manner, with colored engravings and elegant binding, and sold only by subscription, viz:

The Encyclopedia of All Nations,

Is a work issued from the press the present week, comprising a complete physical, statistical, civil and political description of the World; exhibiting its mountains, rivers, lakes, plains, &c.; beasts, birds, fishes, shells, minerals, insects, flowers, plants, &c.; and the productive industry, commerce, political institutions, as well as the civil and social state of all the empires, kingdoms, republics, and principalities of the globe; with a particular account of all the principal cities and towns, including the late discoveries and travels of Dr. Kane, Dr. Barth, and Dr. Livingstone.

As a general view of Astronomy, showing the relation of the earth to the heavenly bodies. By HUGH MURRAY, F. R. S. E. Assisted in Geology, &c., by Prof. Jamieson; Astronomy by Prof. Wallace; Zoology, &c., by Prof. Swainson; Botany by Prof. Hooker. Edited by ELBRIDGE SMITH, A. M., Principal of the Norwich Free Academy.

The whole embellished with a Map of the world on Mercator's projection, and a Chart of the Flags of all the nations of the globe; together with over one thousand engravings some of which are beautifully colored.

In two volumes, bound in elegant embossed and gilt leather binding, consisting of over 1,700 closely printed, large, imperial, octavo pages. Also,

THE HISTORY OF THE WORLD,

Comprising a general history, both ancient and modern of all the principal nations of the globe, in two volumes octavo, 1,500 pages, and numerous colored engravings.

The success that has attended this work since its publication is unprecedented, and a number of agents are now making from \$400 to \$4000 a year in its sale.

Illuminated History of North America,

In one octavo volume, over 700 pages, and over 400 engravings, (some of which are colored,) with Maps, Charts, &c. Also,

THE ILLUSTRATED NEW WORLD,

Containing a general history of all the various nations and Republics of the western continent, their rise, progress and present condition. Edited by John L. Denison, A. M. One volume, octavo, 300 engravings.

"THE NEW WORLD,"

In the German language, and the most popular work ever offered to the Germans; one volume octavo, 900 pages, over 300 engravings, many of which are colored.

"The Pictorial History of the Wars of the United States,"

In one volume, octavo, 550 pages, numerous colored engravings of battle scenes, &c.

A Pictorial History of the Navy of the United States,

Embracing a complete history of all the naval battles of the country, from its earliest settlement to the present time, by John Ledyard Denison, A. M.

A Pictorial Biography of Andrew Jackson,

Embellished with numerous engravings, many of which are colored by hand by the best artists. By John Frost, L. L. D. In one volume, octavo, 560 pages.

All books unsold, may be returned at prices charged.

School teachers, professional men, and young men from the country, are preferred as agents, and generally make from \$50 to \$200 per month.

Those wishing further information, or desiring appointments as agents, will apply immediately at the office of the subscriber, or address by mail.

HENRY BILL, Norwich, Conn.

UNITED STATES POSTAGE.

Letters not exceeding half an ounce, and within 3000 miles, 3 cents, pre-paid, by stamps or stamped envelopes; and the same for every additional half ounce or fraction thereof. Over 3000 miles, 10 cents half an ounce, &c. Drop letters, one cent; advertising, one cent.

Newspapers, periodicals, unsealed circulars, &c., weighing not over 3 ounces are to pay one cent each, to any part of the United States; or half that rate when paid quarterly or yearly in advance. Newspapers, &c., weighing not over 1 1-2 ounces, half the above rates, when circulated within the State of publication. Newspapers, papers and pamphlets of not more than 16 pages, 8 vo, in packages of not less than 8 ounces, to one address, to be charged half a cent an ounce, without regard to the number of pieces. Postage on all transient matter to be pre-paid or charged double. Weekly newspapers free in the county of publication. Bills for Newspapers, and receipts for payment of money therefor, may be enclosed in subscribers' papers. Exchange between newspaper publishers free.

Books bound or unbound, of not more than 4 pounds each, 1 cent per ounce, under 3000 miles, and 2 cents over that distance. Fifty per cent, to be added when not pre-paid.

Newspapers, &c., to be so inclosed that the character can be determined without removing the wrapper; to have nothing written or printed on the paper beyond the direction, and to contain no inclosure other than the bill or receipts before mentioned.

FOREIGN POSTAGE.

The following table shows the rates of postage between this and the various foreign countries and ports with which regular mail communication is established.

	Letters.	Newspapers.
England, Scotland and Ireland,	24 cts.	2 cts.
France (1-2 oz.)	15 "	2 "
China, via England,	33 "	4 "
China, via Marseilles,	45 "	4 "
Hong Kong,	*26 "	2 "
Mauritius, via England,	*33 "	4 "
Mauritius, via Marseilles,	*45 "	8 "
New South Wales, via England,	*33 "	4 "
New South Wales, via Marseilles,	*45 "	8 "
Australia, via England,	*33 "	4 "
Australia, via Marseilles,	*45 "	8 "
Talcahuano and Valparaiso, Chili,	*34 "	6 "
Callao and Païta, Peru,	*22 "	6 "
Panama,	*26 "	2 "
Sandwich Islands,	*10 "	+26 "

Newspapers to England, Ireland Scotland and France should be sent with very narrow envelopes, or they will be subject to letter postage.

*Payment to be made in advance. All other letters optional.

+Weekly, per annum. Papers in all cases to be paid in advance.

AGRICULTURAL.

TILLAGE.

" 'Tis folly in the extreme to till
 Extensive fields, and till them ill;
 The farmer, pleased, may boast aloud,
 His bushels sown, his acres ploughed;
 And pleased, indulge the cheering hope,
 That time will bring a plenteous crop;
 Shrewd common sense sits laughing by—
 For when maturing seasons smile,
 Thin sheaves shall disappoint his toil;
 Advised, this empty pride expel,
 Till LITTLE, and that *little* WELL.
 Of taxing, fencing, toil, no more
 Your ground requires when rich, than poor,
 And more one fertile acre yields,
 Than the huge breadth of barren fields.

" NEAT BE YOUR FARMS; 'tis long confessed
 The neatest farmer is the best.
 Each bog and marsh, industrious drain,
 Nor let vile baulks deform the plain;
 No bushes on your headland grow,
 For briars a sloven's culture show.
 Neat be your barns, your houses neat,
 Your doors be clean, your courtyards sweet;
 No moss the sheltering roof enshroud
 Nor wooden panes the window cloud,
 No filthy kernels foully flow,
 Nor weeds with rankling poison grow;
 But shades expand and fruit trees bloom,
 And flowering shrubs exhale perfume;
 With pales your garden circle round;
 Defend, enrich, and clean the ground;
 Prize high the pleasing, useful rood,
 And fill with vegetables good."

FERTILIZING PROPERTIES FROM THE AIR.—A quantity of ammonia and nitric acid, equal, perhaps, on an acre to one hundred pounds of guano, is annually brought down to the soil by the rain, for the benefit of vegetation. Let not, however, the farmer deceive himself, and imagine that he may indulge in idle repose, while nature is thus keeping up the fertility of his lands. But he may profit by this newly discovered bounty of nature, if he will take full advantage of the atmospheric manure by means of drainage, which promotes the equal flow of water *through* instead of *over* his soil, by deep cultivation of the land, which brings every part of it in contact with the air. The atmosphere is to the farmer, like sea to the fisherman, he who spreads his nets the widest will catch the most.

THE LAWTON BLACKBERRY.—Above we present an illustration of this comparatively new variety of Blackberry, which has been so strongly recommended to the attention of the public during the past two years. The above cut gives a representation of the *actual size*, as well as of the general appearance of the fruit. Notwithstanding its extraordinary size, thirty to forty of the *medium size* berries filling a pint measure, as has been proved by trial—still it has a delicious flavor, and it contains comparatively few seeds. The great productiveness, the easy culture, and the hardiness of the plant, adapt it to general cultivation in all soils and in most localities. The editor of the *Nerwalk Gazette* has visited the new Rochelle fields, belonging to

Messrs, George Seymour & Co., and says that three acres under cultivation have produced over four hundred bushels of blackberries, with a cultivation that cost eight dollars per acre, and the blackberries when sold in New York realized above \$3200, or more than \$1000 per acre. Besides this, thirty barrels of blackberry wine, now worth \$50 per barrel, have been made from the berries grown on the same lot, and there are plants enough for the sales of next Spring to make the net yield from this small lot at least *five thousand dollars*.

The plant is easily cultivated, and perfectly hardy, and cannot fail to pay an enormous profit to the cultivator. This fruit becomes *black* several days before ripening. *It should not be gathered until it becomes pulpy and sweet.* It is then delicious.

PROTECTION AGAINST THE TURNIP FLY.—A farmer in England has secured his crops of Turrips and Ruta Bagas from the attacks of this destructive insect, by steeping the seed for about five minutes, in a solution of salt in water made so strong as to float on egg. He stirs the seed about, skims off the light grains, puts the good into a sieve to drain off the liquid, and then places it on a cloth to dry. For sowing in the evening he thus prepares his seed in the morning and for sowing in the morning prepares it the evening previous. He sows annually from 230 to 250 acres, and has not had occasion to resow on account of the fly for seventeen years. Does not this fact—this experience of seventeen years—furnish sufficient encouragement for making trials of a similar mode of preparing the seeds of cabbage, potatoes, &c., and of all plants, indeed, which are liable to the attacks of insects at an early stage of its growth? The result desired may appear but little probable, or difficult to be accounted for if found to take place, but will be valuable whether it can be explained or not.

CAHOON'S MAMMOTH PIE PLANT.—Two stalks selected from a root of this variety of Pie Plant, raised at East New London by Wm. H. Starr, last season, measured eight inches in circumference, and twenty four feet one and a half inches around the outer edge of the leaf, six inches in circumference, and twenty-five feet one inch around the leaf. It was grown in common garden soil and with ordinary cultivation.

NEW MODE OF RIPENING PEARS.—In Hovey's Magazine, it is stated that, at a late meeting of the English Horticultural Society, H. C. Carre communicated the results of some experiments in regard to improving the flavor of various kinds of pears, by heat and light, under glass. Last Autumn, he placed upon a broad shelf, in the warmest part of a greenhouse, near the glass at the top, various kinds of pears, as soon as they were gathered from the trees; and likewise, some near the front sashes. The fruit was thus exposed to heat and sunlight, and the improvement in flavor, as regards some varieties, was most remarkable. From his success last season, he believes that in many parts, where pears do not ripen well, they may be rendered much melting and sugary by exposing them to light and heat when gathered, than if kept in the ordinary manner.

HOUSEHOLD DEPARTMENT.

ELDERBERRY JAM FOR COLDS, &c.—One quart of elderberries ; one pound of loaf sugar , and tea-cup of water—let them boil slowly for an hour. If preferred without seeds, strain the berries after boiling a few minutes, before the sugar is added. This is useful and agreeable for colds. Take it through the day or at night when the cough is troublesome. It is said also to purify the blood, and is taken to prevent erysipelas.

BLACKBERRY SYRUP FOR MEDICAL PURPOSES.—Two quarts of juice, one tablespoon of loaf sugar, half ounce of nutmeg, half ounce of cinnamon, one-fourth ounce of cloves, one fourth ounce of allspice. Boil a short time, and when cool add one pint of brandy.

FAMILY HARD SOAP.—The following is said to be a cheap and excellent hard soap for family use :—Six lbs. of soda, 3 lbs of stone lime.—Put in a boiler with four pails of soft water, and simmer slowly two or three hours,—not boil, or it will not settle well. Skim off the clear liquid, add one pail of water, six pounds of grease, one teacup of salt. and boil until it becomes soap, then pour it out to cool—after which cut it up.

TO PRESERVE GREEN CORN.—The following recipe is furnished by a gentleman who has practiced it for twenty-five years, and speaks highly of the method :—Take a barrel or any convenient cask,—a common salt barrel will answer the purpose—and spread a layer of dry salt on the bottom to the depth of about two inches ; strip the ears of their husks and set them upright in the salt, until another inch or two is prepared for a second setting. Repeat the process until the cask is filled ; head up tightly, and store in a dry place.

WALNUT LEAVES FOR SCROFULOUS DISEASES.—Dr. Negrier, physician at Angers, France, has published a statement of his success in the treatment of scrofulous disease. in different forms, by preparations of walnut leaves. He has tried the walnut leaves for ten years, and out of fifty-six patients, afflicted in different forms, thirty-one were completely cured, and there were only four who appeared to have obtained no advantage.

The infusions of the walnut tree leaves are made by cutting them and infusing about a pinch between the thumb and fore-finger, in half a pint of boiling water, and then sweetening it with sugar. To a grown person M. Negrier prescribed from two to three teacupsful daily. This medicine is a slightly aromatic bitter, its efficiency is nearly uniform in scrofulous disorders, and it stated never to have caused any unpleasant effects. It augments the activity of circulation and digestion and to the functions imparts much energy. It is supposed to act upon the lymphatic system, as under its influence the muscles become firm, and the skin acquires a ruddier hue. Dry leaves may be used throughout the winter, but a syrup made of the green leaves is more aromatic. A salve made of a strong extract of the leaves is excellent for washing them.

The salutary effects of this medicine do not appear on a sudden—no visible effect may be noticed for twenty days, but perseverance in it, says M. Negrier, will certainly effect a cure.

TOMATO FIGS.—The following recipe for tomato figs is said to be excellent. The figs are delicate in flavor, losing nearly all the peculiar tomato taste, and are in every way excellent. We commend them to the trial of any one who likes dried sweetmeats of this kind, equaling almost, the Smyrna fig.

Pour boiling water over the tomatoes in order to remove the skins; then weigh them, and place them in a stone jar, with as much sugar as you have tomatoes, and let them stand two days; then pour off the syrup, and boil and skim it until no scum rises. Then pour it over the tomatoes, and let it stand two days, as before, then boil and skim again. After the third time, they are fit to dry if the weather is good; if not, let them stand in the syrup until drying weather. Then place in large earthen plates or dishes, and put them in the sun to dry, which will take about a week, after which pack them down in small wooden boxes, with fine white sugar between every layer. Tomatoes prepared in this manner will keep for years.

A few apples cut up and boiled in the remainder of the syrup, make a very fine sauce.

SARSAPARILLA SYRUP.—Purchase of a druggist of known honesty, fifteen ounces of Para Sar aparilla; split all the stalks in two lengthwise, and cut it in short pieces. Soak it in a gallon of pure water for twenty-four hours, then boil it down to two quarts; strain, and add while boiling, fifteen ounces of white sugar; thicken all by a little additional boiling, precisely as you would make the syrup of preserves. Here you have two quarts of pure syrup for eighty cents. The dose is from a teaspoonful to a wine glass full, according to age, three times a day; but it would do harm if taken by the tumblers. It is not hurtful in any dose. If you make it, you are certain that you get the genuine article—which is very doubtful if you buy it.

CERTAIN CURE FOR SUMMER COMPLAINT.—One pint of new milk, one stick of cinnamon, three tablespoons of fresh mutton tallow, melted, one tablespoon of starch. Boil to half a pint. To be taken at one or two doses, as the stomach will bear. It will be more palatable if taken warm. The above has never failed to cure, even when given over by the physicians. Very many instances of children teething have been cured of the bowel complaint by using the same.

CURE FOR POISON FROM IVY.—Salt and strong vinegar is said to be a certain cure for the effects of Poison Ivy, on the system. Bathe freely and frequently until cured.

ANOTHER.—Take the juice of *Lobelia*, or Indian Tobacco, and apply it to the part affected, by rubbing it on freely. It is easily found in almost any field in the summer. In winter use an infusion of the dried herb.

MISCELLANEOUS.

Daboll's Almanac.—This veteran Almanac dates its first issue in 1793, consequently the present is the *sixty-eighth* edition of the work. The publishers will give twenty-five cents each for *all* the numbers of the set in good order.

Pressure of the Atmosphere.—The pressure of the atmosphere upon every square foot of the earth amounts to twenty-one hundred and sixty pounds. An ordinary sized man, supposing his surface to be fourteen square feet, sustains the enormous pressure of thirty thousand two hundred and forty pounds.

ILLUSTRATED PEAR BOOK.—This excellent work which will be found advertised on another page, should be in the hands of every Fruit Cultivist in the country. The beauty of its colored engravings, the concise and valuable instruction relating to the culture or this desirable fruit—the copious lists of varieties, with suggestions in regard to the best selections, &c. &c., with every thing relating to the *profitable* culture of the Pear, make it one of the most desirable Horticultural works of the day. Look at the advertisement, and send for a copy.

Value of Old Coins.—Old coins sell well in London. The proceeds of a recent sale amounted to over thirteen thousand dollars. A gold penny, of Henry III., sold for over six hundred dollars, a Lord Baltimore (American) penny for three hundred and sixty-nine dollars, and a New England half-penny for seventy-five dollars.

Velocity of Sound.—Sound travels at the rate of one thousand one hundred and forty-two feet per second in air, four thousand nine hundred and ninety in water, eleven thousand and ninety in cast iron, seven thousand in steel, eighteen thousand in glass, and from four thousand and six hundred and twenty-six to seventeen thousand in wood.

WASHINGTON'S FAC SIMILE ACCOUNTS.—A most unique and valuable work for every one who honors the name and appreciates the memory, of the "*Father of his Country*." This rare and desirable publication should find a place in every family, and be preserved as an heir loom to the latest posterity. The reader can scarcely divest himself of the idea that he is sitting at the table of the immortal original, and reading the manuscript fresh from his pen. It is invaluable to all. Send for one. See advertisement.

Electricity.—Electricity moves with a greater velocity than light which traverses two hundred thousand miles of space in a second of time.

Expansion of Water.—The violence of the expansion of water when freezing, is sufficient to cleave a globe of copper of such thickness as to require a force of twenty-eight thousand pounds to produce the same effects.

Expansion of Air.—Heat rarifies air to such an extent that it may be made to occupy five or six hundred times the space it did before.

AYER'S CATHARTIC PILLS.

THE sciences of Chemistry and Medicine have been taxed to their utmost to produce this best, most perfect purgative known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every day complaints of everybody, but also

Dangerous and Formidable Diseases

that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their convictions that my preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

They cure the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom. Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system cure many complaints which it would not be supposed they could reach, such as Deafness, Partial blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for

AYER'S PILLS,

and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

AYER'S COMPOUND EXTRACT OF SARSAPARILLA,

The most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure for scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PUSTULES, PIMPLES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded on truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate the vital fluid, without which sound health is impossible in contaminated constitutions.

This compound will be found a great promoter of health, when taken in the Spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them, many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine.—Cleanse out the vitiated blood wherever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in your veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered and overthrown.

Sarsaparilla has and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla or anything else,

During late years, the public have been misled by large bottles pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle. Prepared by

Dr. J. C. AYER, Lowell, Mass.,

ROOT BEER FOR 8 CENTS A GALLON!

COMPOUND EXTRACT OF ROOTS!!
FOR MAKING BEER.

The Beer made from this Extract, is not only a healthy beverage, but one of the most pleasant and invigorating that can be found for use in warm weather. The low price at which it is afforded, the readiness with which the Beer is prepared from it, its healthfulness and agreeableness as an every day drink, have rendered this one of the most popular articles in the market. One bottle, at 25 cents, will make 11 gallons of Beer. It is perfectly free from all intoxicating properties. Prepared and sold by

DR. SWEET'S INFALLIBLE LINIMENT!

THE GREAT EXTERNAL REMEDY.

For the speedy and permanent cure of

Rheumatism,

SPRAINS, BRUISES, BURNS AND SCALDS,
NEURALGIA, STIFFNESS OF THE JOINTS,
LUMBAGO, HEADACHE, TOOTHACHE,
QUINSY, SORE THROAT, WOUNDS,
SORES, PILES, AND ALL

Rheumatic and Nervous Disorders.

This Liniment is prepared from the recipe of Dr. STEPHEN SWEET, of Connecticut, the great natural bone setter, whose name and fame have been as familiar as household words throughout the United States for nearly forty years, during which time, though never having changed his residence, his professional practice has embraced TWENTY-THREE STATES, and is believed to have comprised a larger experience in the treatment of external injuries than that of any other man living. This Liniment, now for the first time made public, is the result of his wide experience and practical skill; and having been thoroughly tested for twenty years, is fully guaranteed to perform all it promises, and is justly entitled to the term INFALLIBLE. It is truly a FRIEND IN NEED, which no Family, Hotel, Manufactory, Steamboat, Vessel or Railroad should be without; and the moderate price at which it is offered places it within the reach of all. As a UNIVERSAL EXTERNAL REMEDY, for the IMMEDIATE RELIEF OF PAIN, it is unrivalled by any preparation before the public, of which the most skeptical may be convinced by a single trial.

Full Directions accompany each bottle.

PRICE 25 CENTS.

THE NEW YORK EVANGELIST,

A

Religious and Family Newspaper,

Of the largest class.

This old established newspaper, which, FOR THIRTY YEARS has been a welcome visitor in thousands of Christian families, has recently been enlarged and improved. Its size has been nearly doubled, and it has added to its list of regular contributors some of the best writers in the country.

A special feature of THE EVANGELIST has always been its full reports of

REVIVALS OF RELIGION.

It came into existence with the Revivals of thirty years ago. As these glorious scenes are again spreading over our country, and are appearing also with great power in

IRELAND, WALES, AND SCOTLAND,

its weekly reports of the progress of the work will be looked for with universal interest.

THE EVANGELIST also contains a weekly summary of intelligence from

And all Religious Denominations,

A record of the operations of

ALL BENEVOLENT SOCIETIES,

A LARGE

HOME AND FOREIGN CORRESPONDENCE,

Full Notices of New Books,

MONEY ARTICLE AND REVIEW OF THE MARKETS, and a CHILDREN'S and FARMER'S DEPARTMENT, richly supplied with original and selected articles. These features render it a

SKY GROVE COTTAGE FOR SALE!

THE NEW GOTHIC COTTAGE,

Lately built by the Hon. Wm. H. Starr, and now belonging to Lincoln Clark, Esq., of Iowa, is offered for sale. Said cottage is beautifully situated about half a mile north of the Parade, on a lot containing an acre and a half of land, profusely ornamented Evergreens, Trees, &c., and commanding a most picturesque view of the River Thames, City, Harbor, &c., &c. Altogether it presents a combination of charms rarely equalled. Enquire of

JOHN R. BOLLES.

Also,

The subscriber offers for sale,

FIFTY ACRES OF LAND,

Lying in the city of New London, and much of it within a mile of the Parade. It comprises a portion of the Lewis Grove, so called, and extends from Main Street to the River, presenting a front on each of about eighty rods, with a new street laid out and nearly completed, running through the centre of the tract of land to the northern limits of the city; on each side of which are some of the most eligible sites for residences to be found in the State, commanding a full view of the city, harbor, portions of the river, and other objects of interest. It offers an opportunity for speculators in land, or for persons desiring elegant residences in the city, and is offered for sale in lots to suit purchasers.

ALSO, FOR SALE,

THE BRICK HOUSE,

Lately occupied by the Subscriber on Main Street, and the House immediately adjoining the same on the north.

Also,

SEVERAL OTHER HOUSES AND LOTS

Situated in different parts of the city.

TURF, GRAVEL, AND LOAM,

In large or small quantities, for sale by

JOHN R. BOLLES.

WHOLESOME BREAD!!

JAMES
PYLE'S
DIETETIC
SALARATUS.

JAMES
PYLE'S
DIETETIC
SALARATUS.

JAMES
PYLE'S
DIETETIC
SALARATUS.

JAMES
PYLE'S
DIETETIC
SALARATUS.

JAMES
PYLE'S
DIETETIC
SALARATUS.

HOUSEKEEPERS, ALWAYS BUY THE BEST!

This SALARATUS should be found in the culinary department of every house in the land. Its unquestionable purity, and excellence in producing

GOOD BREAD,

Must bring it into general use. The wide spread reputation it has already gained, is the result of real merit, and shows the ability of the American people to discriminate in favor of a wholesome article.

There are thousands of sufferers from dyspepsia, decayed teeth, and other derangements of the system, brought on by the use of *common caustic Salaratus*. It is a sad spectacle, too, to look upon the "puny faced child" of the present day, without constitution, and with its teeth all eaten out, and think of the cause being impurities in food.

How much longer, *good mothers*, is this state of things to last? Ask for

JAMES PYLE'S DIETETIC SALARATUS,

WHICH IS

Free from Every Impurity,

And as harmless to the stomach as Flour itself.

If you want nice biscuit, cake, &c., you can find nothing to equal it. Tell your grocer you want no other. No doubt he will tell you it is no better than any other, in order to get rid of his old stock, or something on which he can realize larger profit; but persevere until you get it, and

JUDGE FOR YOURSELF.

BEWARE OF COUNTERFEITS.

The readiness of unscrupulous rivals to imitate our labels, signifies much in our favor. The genuine is done up in pounds, halves and quarters, with the name of "JAMES PYLE" on each.

Depot 345 Washington, cor. Franklin Street, New York.

SOLD BY GROCERS EVERYWHERE.

DRUGS AND MEDICINES.

F. L. ALLEN,

WHOLESALE AND RETAIL DEALER IN

DRUGS, MEDICINES, PAINTS, OILS,
DYE STUFFS, PERFUMERY,
CAMPHENE, BURNING FLUID, &c.,

Popular Patent Medicines of the Day,
Physicians Prescriptions accurately compounded,

Teeth with Athelode Gums.

SHEFFIELD & BROWN, DENTISTS,

Grateful for the unprecedented patronage of the office for the last ten years, would inform their friends, that they are now manufacturing Artificial Teeth, with a continuous gum, *something entirely new*, which for strength, cleanliness, and that perfectly life-like appearance characterizing the natural organs, cannot be excelled. We invite the most critical attention. Particular attention given to all dental operations, which ought to be committed to none but skillful hands, viz: FILLING, REGULATING, EXTRACTING, &c. We take pleasure in referring to any of our numerous patrons and respectfully solicit favors from those needing our services. Persons in the country will be waited upon at their residences by notifying to that effect.

N. B. Teeth Extracted without Pain,

by the application of a new local benumbing agent. Having every facility for the manufacture of Artificial Teeth, we shall make the terms to suit the times.

FILLINGS REGISTERED AND WARRANTED CONTINUOUSLY.

82 State Street, over the Store of T. Potter & Co.,

NEW-LONDON, CONN.

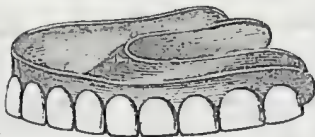

W. W. SHEFFIELD,

R. W. BROWN

SAVE YOUR TEETH!

YOU CAN NEVER FIND THEIR EQUAL!!

The subscriber, at
No. 4 MAIN ST.,
over Starr & Co.'s
bookstore, begs leave
to say to the public
that he is prepared to
perform any operation
relative to his
profession in a su-

perior manner. He
calls upon you not to
listen to ignorant or
unprincipled opera-
tors, but get the ad-
vice of many before
you consent to have
your teeth extracted,
to be replaced by ar-
tificial substitutes.

He invites the criticism of all to his new method of artificial plates, called VUL-
CANITE BASE, which is in most respects superior to gold. I am the only person in
this city owning the right to put it up. Call and see it, and also see specimens of
CONTINUOUS GUM WORK.

I will state that I have obtained the best system of extracting teeth without pain.
You merely experience a numbness, and then an exhilarating sensation. It works
like a charm, without deception. Chloroform given by inhalation only.

All Operations Registered and Warranted Continuously.

House and Steamboat Interior Decorators.

BAILEY'S PATENT WASHING, WRINGING, AND STARCHING MACHINE. PATENTED APRIL 5th, 1859.

This Machine is adapted to all kinds of clothes, from a pocket handkerchief to a bed-quilt. You can wring your clothes in less than one-quarter of the time, and so much dryer that they will dr. in one half the time, and not injure your clothes one half as much as when twisted by hand. This Machine is formed with two spring rolls covered with rubber, and so constructed as to run together with great pressure, and turn fast and easy. The springs in the rolls are so constructed as to yield the most in the centre, where the bulk of the clothes are conducted as they pass between them. By this means the springs with the rubber close so tight around the clothes, that they come through nearly dry enough to iron. However uneven the garment may be, it leaves an equal amount of pressure. It is also sufficiently strong and so arranged that it can be run by power for Laundries, Factories, large Hotels, &c. Although it is a small and simple machine, it is able to do a large amount of work in a short time.

This machine has been thoroughly tested for six months past, and found to do everything that it was designed to do. And after you buy one of them, and find it will not do what I claim for it, you can return it and have your money, as all my agents are authorized to do this. So there is no chance for you to get humbugged, by giving them a trial, and it may be just the thing you want.

To wash with this machine, put your clothes to soak for about twenty minutes in strong soap suds with warm water, then run them through the rolls five or six times back and forth into the suds, when they will require no rubbing excepting the very dirtiest parts, such as collars and wristbands, which will require but a slight rub with the hands. By this process you will be able to do your washing in less than half the time you can by hand, or any other machine in use, and easier, and no wear and tear to your clothes, like the rubbing board and twisting to get the water from them, as you can see the principle of my machine is to squeeze instead of rub and twist which evades all friction. The price of the Machine is \$12.00. State, County, and Town rights for sale.

DEBAY'S NIOUKRENOLEO,

OR

MEDICATED COMPOUND,

FOR

Restoring, Beautifying, and Preserving

THE HAIR!!

The great secret of the unparalleled success of this preparation lies in the fact that it never fails to give the

The Most Unbounded Satisfaction!

To the Lady or Gentleman using it. It keeps the Hair in the most exquisite condition, without imparting to it an oily or greasy appearance; and, although, by improperly employing injurious washes or corrosive mixtures, the hair may have become harsh, (giving the idea of having been recently curled with a hot iron;) it will become pliant, silk like, and exceedingly beautiful.

This preparation has never failed to remedy the worst cases of Falling of the Hair, in two or three days. As a remedy for Baldness, it stands altogether unrivalled. Its stimulating power in the Preservation and growth of the Hair is truly astonishing. The

Most Overwhelming Proofs

Of the superior excellence of Debay's Nioukrenoleo, or Medicated Compound, will be found in the Pamphlet which envelopes each Bottle. The letters, (as will be at once seen) are from parties of the highest respectability, who have received lasting benefits from its use.

DEBAY'S NIOUKRENOLEO, OR MEDICATED COMPOUND,

Does not stain the skin or soil the Bonnet, and is as delightfully fragrant as a fresh blown Rose. Unlike other preparations,

It Never Becomes Rancid.

None Genuine unless signed by

Our terms shall be as low as at any other establishment, and we would again invite the attention of those who may be in want to call and examine our stock, and bear witness to our statements.

Shepard & Harris, City Hotel Building.

CONSUMPTION CURABLE!!

BY THE USE OF

DR. F. H. RAMADGE'S Inhaling Tube!

This simple remedy seems to be working wonders in arresting, and in frequent instances entirely curing this formidable disease. Dr. Ramadge, the inventor, has been for several years Fellow of the Royal College of Physicians, Senior Physician to the Infirmary for Asthma, Consumption, and other Diseases of the Chest, etc., London. and has been eminently successful in his practice. The Tube is very portable, can be easily carried in the vest pocket, are used any where without inconvenience. It assists nature, and provides for the healthy enlargement and developement of the chest, and is recommended with the utmost confidence to all who are afflicted with, or in any way predisposed to the dreadful disease, *Consumption*.

This Invaluable Instrument, WITH FULL DIRECTIONS FOR ITS USE, TOGETHER WITH A SMALL TREATISE, GIVING MUCH INFORMATION

Respecting the practice of the distinguished inventor, with an account of several cases in relation to his practice, in which it has been beneficial in this country, and other corroborative testimony, will be sent by mail prepaid,

FOR \$2.00,

ANSON BROWN,

No. 80 Main Street,

WATCHMAKER AND JEWELLER,

Importer and dealer in Diamonds, Watches, Jewelry, &c. A. B. invites the public to an inspection of his stock, which is now one of the largest in the State, and for quality and fineness, cannot be excelled, if equalled.

From his long connection with one of the first Watch Importing Houses in this country, he has peculiar facilities for obtaining the most celebrated Watch Movements at a comparatively low figure, and of choosing his stock from the best makers. He is prepared to furnish his patrons from a good silver watch to the most accurate time manufactured, at a lower figure than can be furnished in the State. Likewise always on hand a rich and varied assortment of Jewelry, Clocks, and Fancy Goods of every description, selected with taste. All work entrusted to his care, such as Repairing, Watches, Resetting Jewelry, Polishing, &c., done in an artistic and workmanlike manner.

A call from the citizens of Norwich and residents of New London County, is respectfully requested before purchasing elsewhere.

Don't forget the Big Watch, two doors west of the News Office.

N. B. Circulars sent on application,

CERISIAUX'S RHEUMATIC ANTIDOTE!

For the speedy relief and cure of Chronic Rheumatism; Gout; Pains in the Chest, Side, or Back; Sprains; Strains, or Bruises; Nervous or Sick Headache; Langour or Faintness; Sore Throat; Cramp in the Neck, Shoulders, Stomach or Bowels; Colic; Summer Complaint; Worms; Diarrhea; Fever and Ague; Cold, Lame, or Sore Feet; Frost Bites; Chilblains; Bunions and Corns; Erysipelas; Pimples; Blotches; Salt Rheum; Scurvy; Prickly Heat; Stings of Insects, &c.

The proprietors and manufacturers of CERISIAUX'S RHEUMATIC ANTIDOTE venture to say that never since the Science of Medicine first dawned upon the world, has any preparation, for this class of diseases and complaints, gained so much popularity in so short a space of time. It is the discovery of one of the first Physicians and practical Chemists of the nineteenth century, and is, therefore, composed of materials which perfectly assimilate and are strictly compatible with each other,—therefore, the attention of the afflicted is not called to a quack nostrum.

CERISIAUX'S RHEUMATIC ANTIDOTE is designed for **EXTERNAL** as well as **INTERNAL** USE. It is delightfully fragrant, and never becomes stale or rancid, being entirely free from grease or fatty matter. CERISIAUX'S RHEUMATIC ANTIDOTE is, positively, free from mineral and vegetable poisons, as well as from injurious or deleterious substances of every description; it is, although possessing most wonderful influence in controlling disease, perfectly harmless, even when given to the most delicate infant. It is used by the first physicians and families in the United States, Great Britain, France, and Germany; and has cured many desperate cases of disease after patients had been abandoned, and their conditions pronounced hopeless, by medical practitioners of high professional character. As a remedy for Nervous or Sick Headache, Colic, Worms, Summer Complaint, Diarrhea, &c. it has no equal.

Full directions accompany each bottle.

This medicine is carefully packed in boxes of 4, 6, and 12 dozens each.

PRICE. \$2.00 PER DOZEN.

WEBSTER UNABRIDGED
PICTORIAL EDITION!**

1500 Pictorial Illustrations.

**WEBSTER'S
UNABRIDGED DICTIONARY,
New Pictorial Edition.**

We have just issued a new edition of Webster's Unabridged Dictionary, containing

1500 PICTORIAL ILLUSTRATIONS,

Beautifully executed.

9000 to 10,000 NEW WORDS in the Vocabulary, TABLE OF SYNONYMS, by PROF. GOODRICH,

In which over 2000 Words are carefully discriminated, forming a fuller work on English Synonyms than any other issued beside Crabb, and believed in advance of that.

Table giving Pronunciation of Names of 8000 distinguished persons of modern times, Peculiar use of words and terms

in the Bible, with other new features, together with

All the matter of previous editions.

COMPRISED IN A VOLUME OF 1750 PAGES.

"We have seen specimen sheets of the Pictorial Illustrations. They are well executed, and will often be found useful in giving a much more correct idea of an object than can be obtained by a definition."—*N. Y. Tribune.*

"We have seen specimen pages of portions in architecture and ornithology, and find them of artistic beauty, as well as of great practical value."—*Christian Mirror, April 12, 1859.*

We have seen specimen sheets of these illustrations, and can hardly see how they could be improved in beauty or accuracy.—*Boston Evening Transcript.*

SOLD BY ALL BOOKSELLERS.

Specimen pages of new features will be sent on application to the publishers.
